Dear Recruiting Manager,

I am a diligent, self-motivated, and analytical Master of Science in Computer Science student at Illinois Institute of Technology, Chicago. I got to know about the Software Engineer position through LinkedIn. During my studies and professional career, I have had ample opportunities to put my programming skills into practice. I am currently working as a Software Engineer Intern for CME Group Inc, Chicago and graduating in Spring 2021.

I have 9+ years of experience in performing the duties and responsibilities as a Senior Software Engineer working at IHS Markit & Tata Consultancy Services, India. In these roles, I focused on the development of applications using the technologies such as Java, C#, Spring Boot, JPA, Hibernate, REST Webservices, Struts MVC, Angular 2+, JavaScript, jQuery, Kafka, Puppet, and various frameworks as well. I gained a comprehensive knowledge of software development process, incremental builds, and deployment automation. I am competent at working with clients, support and QA teams to resolve bugs and support issues. I have a passion for providing quality solutions. Also, I have positive attitude and dedication towards work. I can work in a team-oriented environment.

My professional career and education provided me with the experience of being a team player, taking ownership and delivering high-quality products on time ensuring total customer satisfaction. During my tenure at IHS Markit & TCS, I had frequent client interaction and provided products which were user-friendly and less prone to defects. This opportunity is helping me to adapt to international work culture. I believe that my previous work experience and my current education will help me to contribute to the company's goal. I am willing to learn new technologies and look forward to work with a great team.

As a proactive and enthusiastic individual, I would greatly appreciate an opportunity to discuss my capabilities with you in more details. I have enclosed my resume and transcript for your review. Thank you for your time and consideration. You can contact me at +1 (224) 282-5081 and shantanoo.sinha@gmail.com/ssinha15@hawk.iit.edu.

Sincerely,
Shantanoo Sinha
